SHOULDER SYSTEMS

These items are designed for use with any ESCORT or ELITE Shoulder Holsters.

The 840 System Harness will be supplied right handed, (to fit right shoulder), unless stated otherwise. It has two elastics for attachment to existing harness. Please state if unit is to be worn on it's own, e.g. with the #845 for competition, where a full elastic will be substituted.

Also available is our 840E Criss-Cross Leather System Harness with Swivel Back Plate which in most cases is more desirable as a unit. When ordering a full system with the 840E you will not be charged for the regular harness. Our Webbing Harnesses are designed for use over heavy clothing, for comfort we recommend leather.

HOW TO MEASURE YOUR BELT SIZE AND BARREL LENGTH.

YOUR DRESS BELT.

Please specify your exact belt size.

When determining your size from your older trouser belt, measure from the most used hole to the outer edge of the buckle.

YOUR GUNBELT

accommodates your holster and accessories and will possibly be worn at angles over various types of clothing, so please allow for this when stating size required. Most belts are usually made to order and cannot be exchanged.

REVOLVERS

The barrel length is measured from the face of the cylinder to the muzzle.

AUTOMATICS

Automatic pistols are measured from the rear of the ejection port to the muzzle.

FORWARD RAKE = Muzzle Forward.

BACKWARD RAKE = Muzzle Back.

WE USE ONLY TOP QUALITY FULL GRAIN LEATHER WHICH WE DRESS WITH OILS & WAXES. EDGES ARE HAND FINISHED AND BURNISHED.

IMPORTANT

Only use your ESCORT holster with the specific gun and barrel length for which it was designed. Unless otherwise stated, our holsters are made for standard weapons. In some cases variations such as grip adapters and trigger guard spurs, etc., could cause improper fitting. Please inform us of any modifications. Never use trigger shoe equipped handguns with any holster.

Escort Gunleather takes no responsibility as to the use of the product sold. The determination of the fitness or suitability of any product is the responsibility of the buyer as is the entire risk as to the quality and performance of the product.
